

NS2 Intallation:

1. Download NS2 from <https://www.isi.edu/nsnam/ns/ns-build.html#allinone>
Click on current release 2.35.

2. Goto terminal

3. type the following in terminal

```
$ tar -xvzf ns-allinone-2.35.tar.gz
```

```
$ sudo apt-get install build-essential autoconf automake libxmu-dev
```

```
$ ./install
```

```
$ ./sudo apt install ns2
```

```
$ ./sudo apt-get install -y nam
```

```
$ ns
```

you will get

%

type exit

.....

Installation is successful.

Save the program simple .tcl in a folder

In terminal go to the folder where you saved your program , Then to run it,

```
$ ns simple.tcl
```

nam will open, click the play button, you can now view the animation.

That's it.....

Good Luck.
